PROFESSIONAL SUMMARY

Sr. Cloud Consultant with **11 years of experience** designing and delivering secure, scalable multi-cloud platforms on **AWS and Azure**. Proven success leading migrations of **250+ workloads** across 15+ enterprise clients with zero unplanned downtime. Expert in **Landing Zone design, Terraform IaC, Zero Trust security, BNM RMIT compliance, presales, and RFP/RFI responses**. AWS Certified AI Practitioner with hands-on expertise in **Generative AI, Amazon Bedrock, LLMs, RAG, prompt engineering, and responsible AI** driving enterprise AI adoption alongside cloud transformation programmes.

CORE TECHNICAL SKILLS

AWS	EC2, VPC, S3, IAM, ELB, NAT Gateway, CloudWatch, Secrets Manager, ECS, Systems Manager, AWS Backup, Direct Connect, GuardDuty, Config, IAM Identity Center, KMS, SageMaker, QuickSight, Workspace
Azure	VMs, VNet, NSG, ExpressRoute, Site-to-Site VPN, Load Balancer, Blob Storage, Microsoft Sentinel, Azure Policy, Entra ID, Key Vault, Azure Monitor, Azure Arc, Log Analytics
IaC & Automation	Terraform, AWS CloudFormation, Ansible, AWS CDK
CI/CD & Containers	GitLab, Jenkins, Docker, Kubernetes, Git, Maven, Azure DevOps, GitHub
Migration Tools	AWS MGN, Azure Migrate, ASR, Azure DMS, RiverMeadow, Veeam, Cloudamize
Security & Governance	Zero Trust Architecture, CSPM, BNM RMIT Compliance, FinOps, Platform Engineering, CyberArk, Splunk, AWS Trusted Advisor
AI / GenAI	Amazon Bedrock, LLMs, RAG, Prompt Engineering, Responsible AI, AI Security, SageMaker, QuickSight
Networking	DNS, LDAP, TCP/IP, Direct Connect, ExpressRoute, Site-to-Site VPN, Firewalls, NSG, Hybrid Connectivity
Monitoring & ITSM	CloudWatch, Azure Monitor, Log Analytics, Splunk, ServiceNow, JIRA, Confluence
Operating Systems	Linux (RHEL, CentOS, Ubuntu), Windows Server

PROFESSIONAL EXPERIENCE

Sr. Cloud Consultant (Promoted)

Sep 2024 – Present

SoftwareOne Experts Sdn Bhd · Kuala Lumpur, Malaysia

- Served as primary technical lead for presales, partnering with Sales and Professional Services to design AWS/Azure solutions - contributing to **8+ cloud transformation programmes** and authoring technical responses for **4+ complex RFPs**.
- Led cloud migration programmes covering **250+ workloads across 15+ client accounts** using AWS MGN, Azure Migrate, ASR, RiverMeadow, and Veeam - achieving **<2-hour RTO** with **zero unplanned downtime** during all cutovers.
- Designed hybrid-cloud architectures using AWS VPC, Direct Connect, VPN, Azure VNet, ExpressRoute, and Azure Firewall, supporting **99.9% availability SLA** across enterprise environments.
- Designed **AWS Landing Zones** with hub-and-spoke architecture and automated governance controls aligned with **BNM RMIT**, reducing compliance gaps by approximately **40%**.
- Led customer discovery sessions and executive workshops, driving technical alignment and project buy-in across C-suite and senior technical stakeholders.
- Assessed and recommended **Amazon Bedrock-based GenAI solutions** for enterprise clients, evaluating LLM selection, RAG architecture, prompt engineering strategies, AI security, responsible AI controls, and cost optimisation.
- Applied **Generative AI and foundation model concepts** (tokens, embeddings, inference, model lifecycle) to identify AI use cases that complement and extend existing cloud solutions.

Cloud Consultant

Nov 2022 – Sep 2024

SoftwareOne India Private Limited · India

- Architected and delivered scalable, secure, enterprise-grade **AWS cloud solutions for top-tier FSI organisations** ensuring robust performance, compliance alignment, and successful outcomes across **12+ enterprise engagements**.
- Automated infrastructure provisioning with **Terraform and CloudFormation** across multi-cloud environments, reducing manual provisioning time by **60%**; implemented governance via AWS Systems Manager, Azure Automation, Azure Arc, and Azure Policy for **500+ resources**.
- Conducted **Cloud Readiness Assessments and TCO analyses** for 10+ clients, producing modernisation roadmaps that drove **25-35% cost savings**; identified Reserved Instance and right-sizing opportunities saving clients an average of **\$150K+ annually**.
- Migrated Linux workloads (RHEL, Ubuntu, CentOS) to AWS/Azure, configuring **DNS, LDAP, and TCP/IP networking** within hybrid architectures; remediated critical security vulnerabilities and performance bottlenecks.

Cloud Operations Architect Specialist

Nov 2019 – Oct 2022

Accenture Solutions Private Limited · India

- Authored and maintained **Terraform modules for 50+ infrastructure components** (EC2, VMs, Load Balancers, VPCs, Scale Sets) across AWS and Azure; migrated **30+ CloudFormation templates** to Terraform to standardise IaC practices.
- Managed **Docker and Kubernetes clusters** for a Vodafone production environment serving millions of users — pod health monitoring, rolling upgrades, patching, and AMI lifecycle management.
- Built and maintained **CI/CD pipelines using Jenkins and GitLab** for the Amdocs suite on AWS, reducing deployment lead time from **4 hours to under 45 minutes**.
- Developed **Ansible playbooks** for automated OS patching across **200+ servers**, achieving **95%+ patch compliance** with Systems Manager Patch Manager.
- Managed root credential rotation via **CyberArk/MasterSAM** and enforced tag compliance across AWS accounts for security and cost allocation governance.
- Supported **AI/ML infrastructure using SageMaker and QuickSight**; configured Cassandra clusters and authored SOPs for L2 support teams.

Cloud Infrastructure Tech Lead

Oct 2015 – Nov 2019

Cognizant Technology Solutions · India

- Managed **L1/L2 Incident and Change Management (ITIL)** for a production environment with **99.5% uptime**; coordinated **50+ major incidents** and emergency deployments with cross-functional vendor teams.
- Administered **IAM roles, policies, and Active Directory groups for 300+ users**; enforced RBAC, SFTP access control, and network share permissions.
- Automated build and deployment pipelines using **Jenkins and Git**; built and deployed Docker containers and Maven artefacts (JAR/WAR) to Apache Tomcat across DEV/QA/UAT environments.
- Designed fault-tolerant infrastructure using **AWS EC2, S3, IAM, ELB, VPC, and CloudWatch**; collaborated with SQL database teams on production deployments and produced Monthly Service Reports.
